

# How to Open a Poison Pack Can

1. Remove the cannister from both the inner and outer cardboard boxes.

2. Use a screwdriver to pry off the plastic seal at the top of the can.

3. If the seal cannot be pried off with a screwdriver, a knife can be used to cut through the seal.

4. Use a screwdriver to pry open inner metal cap like you would a can of paint.

5. Lift inner metal cap from cannister
